What experience will you bring to the role that will enable NISA to achieve not only its strategic objectives, but also those specific to the position you have applied for?

As a former senior manager in NHS Scotland Counter Fraud Services, I am used to developing and delivering strategic plans, delivering organisational objectives, compliance with corporate and financial governance and managing staff across a diverse range of specialisms. This experience enables me to contribute fully to the duties and responsibilities of the Board.

Since being co-opted on to the Board in 2015, I have identified areas where systems, officials development and procedures can be changed including:

- the review and update all officials' manuals,
- hosting the first regional meetings for Test Organisers,
- commenced face to face meetings with officials to ensure all officials will have a 5 year development plan,
- initiated activity logs for all officials to monitor involvement and identify areas for development and promotion,
- organised Program Component Seminars for judges and coaches to be delivered between April and June
- facilitated a seminar for new Dance TSs.

If elected, my objective would be to ensure that all officials have the necessary training and resources to undertake their roles effectively and that we have a consistent standard of judging across all tests and events.
